Shamli- 251305, Uttar Pradesh

Career Objective

Aspiring web developer and computer science student seeking a Web Development Internship to enhance and apply my knowledge in front-end and back-end technologies including HTML, CSS, JavaScript, React.js, Node.js, and MongoDB. Passionate about building responsive, user-friendly web applications and eager to contribute to innovative development teams while gaining practical industry experience.

Experience

- **Prodigy InfoTech** — *Oct 2024 – Nov 2024, Remote*
  Web Development Intern
  – Completed 1-month internship focusing on web development fundamentals and projects.
  – Practiced HTML, CSS, JavaScript, responsive design.
  – Received outstanding remarks for professionalism and technical contributions.

- **Codec Technologies** — *June 2025 – Aug 2025, Hybrid*
  Web Developer Project Intern
  – Hands-on experience in full-stack web development.
  – Worked on real-world IT/business solutions under mentorship.
  – Learned frontend/backend technologies and agile practices.

Skills

- **Programming Languages:** C, C++, Python, Java
- **Web Technologies:** HTML, CSS, JavaScript, React, Node.js
- **Database Systems:** MySQL, MongoDB
- **DevOps & Version Control:** Git and GitHub
- **Specialized Area:** DSA, DBMS, Design & Analysis of Algorithms

Education

- **COER University** — *July 2023 - June 2027, Roorkee, Uttarakhand*
  Bachelor of Technology
  – GPA: 8.57/10.00

- **D.U.V Inter College** — *March 2022, Banat, Shamli*
  Intermediate
  – Percentage: 68.2%

- **D.U.V Inter College** — *March 2020, Banat, Shamli*
  High School
  – Percentage: 81%

Projects

- **Social Sight**
  Tools: React.js, Node.js, Express.js, PostgreSQl, JWT(JSON Web Tokens)
  – Developed Social Sight, a full-stack social media dashboard using React.js, Node.js, Express, and PostgreSQL, enabling real-time post scheduling and user analytics.
  – Implemented secure JWT-based authentication, user registration/login, and dynamic content management with RESTful API integration.
  – Designed an intuitive, responsive UI with data visualizations and built scalable backend architecture for seamless multi-user interaction..

- **Real-Time Chat Application**
  Tools: React.js, Node.js, Express.js, MongoDB, Socket.IO, JWT, bcrypt, Axios, Mongoose
  – Built a real-time 1-on-1 chat platform using Socket.IO enabling instant message delivery, typing indicators, and online user tracking.
  – Implemented secure user authentication using JWT and bcrypt, with user sessions stored in localStorage and data protected through hashed passwords.
  – Designed a full-stack MERN architecture with MongoDB for message/user storage, Express API for RESTful communication, and React for a responsive user interface..

Certifications

- **MongoDB Bootcamp** — *May 2025*
- **Completion Course Gemini for Google Workspace** — *Jan 2025*
